PROFESSIONAL PROFILE

Third-year Bachelor of Science in Information Technology student at the Polytechnic University of the Philippines with academic experience in Java/MySQL development, Cisco Packet Tracer network administration, and Figma UI/UX prototyping. Collaborative team member and student leader with an interest in multimedia editing and digital design, seeking opportunities to apply and strengthen technical and creative skills.

EDUCATION

Polytechnic University of the Philippines — Sta. Mesa, Manila
Bachelor of Science in Information Technology | Third Year, Currently Enrolled

TECHNICAL SKILLS

Programming & Web: Java, Python, HTML, CSS, JavaScript; responsive web development
Databases & Concepts: MySQL, SQL, JDBC, object-oriented programming, CRUD operations
Networking: Cisco Packet Tracer, VLANs, inter-VLAN routing, HSRP, ACLs, DHCP, SSH, port security
Development Tools: Visual Studio Code, Eclipse IDE, XAMPP, Git/GitHub
UI/UX & Multimedia: Figma, Canva, CapCut; basic familiarity with Adobe creative software

SELECTED ACADEMIC PROJECTS

EduCore University — Campus Network Infrastructure | Collaborative Network Administration Capstone
Co-configured a simulated three-tier campus network designed for 560 users, with departmental VLANs, HSRP redundancy, ACL-based guest restrictions, centralized DHCP, SSH, and switch port security using Cisco Packet Tracer.

CineBook — Movie Ticketing System | Collaborative Java / MySQL Capstone
Contributed to a console-based movie booking system with customer and admin functions, movie schedules, seat selection, reservations, and relational database records.

Music Recording Management System | Java / MySQL Application
Developed a console-based music catalog system with role-based menus, artist/album/song management, search, playlists, and database-backed records.

Load Registration App | Java Console Application
Created a USSD-style mobile load simulation featuring promotions, regular loading, balance checks, and transaction history.

STRIX — AI Study Companion | Android Prototype / Hackathon Work
Explored an offline-first study companion for organizing learning materials, notes, and academic tasks, including early-stage local AI functionality.

PUPulot — PUP Lost & Found Application | Collaborative Figma UI/UX Prototype
Collaborated on interface design and interactive prototyping for a campus lost-and-found concept, including screen layouts, user navigation, and visual design in Figma.

TRAINING & ACTIVITIES

TESDA Java Programming NC III — Training completed; certification pending.
AppBuildersPH Hackathon 2026 — Participant, Team Override (October 9–10, 2026).

LEADERSHIP & INTERPERSONAL SKILLS

Class Representative — BSIT 3-2 (Web Development): Coordinated announcements, deadlines, learning arrangements, and communication between instructor and classmates.
Badminton Team Captain — CCIS: Supported teamwork, coordination, and communication among teammates.
Strengths: Leadership, collaboration, organization, adaptability, time management, problem-solving, and creativity.
